ABOUT ME

An Informatics Engineering student with a strong interest in UI/UX Design and web development. Passionate about creating user-friendly and visually appealing digital interfaces through academic projects and self-learning. Possesses basic knowledge in front-end development, interface design, and problem-solving. A fast learner who adapts well to new technologies and works effectively both independently and in teams.

EDUCATION

● Universitas Maritim Raja Ali Haji | 2023 – Present

Informatics Engineering

Currently pursuing a degree in Informatics Engineering with a focus on UI/UX design and web development. Gaining knowledge in programming, interface design, system analysis, and software development through academic coursework and projects.

● SMA Negeri 7 Sijunjung | 2020 – 2023

Social Science (IPS)

Completed high school education with a specialization in Social Science (IPS), developing analytical thinking, communication, and teamwork skills.

PROJECT EXPERIENCE

Isle Tours – Tourism Information Website | Mar 2025 – Jun 2025

UI/UX Designer

- Designed the user interface and user experience for a tourism information website focused on destinations in the Riau Islands region.
- Created wireframes and visual designs to ensure a clean, attractive, and user-friendly experience.
- Organized tourism content and optimized the user flow to improve accessibility and engagement.

Cooperative Management System | Aug 2024 – Nov 2024

UI/UX Designer

- Designed and edited the web interface for a cooperative information system to manage sales, inventory, purchases, reports, and user management.
- Created responsive layouts for Admin, Cashier, and Owner dashboards to improve usability and operational efficiency.
- Designed UI components and visual elements to deliver a consistent and intuitive experience.

Human Resources Department
PT Nodeflux Teknologi Indonesia

*Jl. Kemang Timur No.24 RT.7/RW.4 Kec. Mampang Prapatan,
Kel. Bangka Kota Administrasi Jakarta Selatan,
DKI Jakarta 12730 Indonesia*

Dear Hiring Manager,

I am writing to express my interest in the UI/UX Designer position at PT Nodeflux Teknologi Indonesia. I am currently an Informatics Engineering student with a strong passion for user interface design, user experience, and digital product development. I am highly interested in creating modern, user-friendly, and visually appealing interfaces that improve user satisfaction and accessibility.

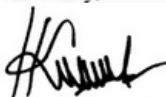

During my academic projects and personal learning journey, I have developed several UI/UX design projects, including a tourism information website and a cooperative management system. Through these projects, I gained experience in user research, wireframing, prototyping, information architecture, and responsive interface design using tools such as Figma and basic front-end technologies.

I am also familiar with basic front-end technologies such as HTML, CSS, and JavaScript, which help me better understand how design is implemented in real-world applications. I enjoy collaborating with teams, solving design problems, and continuously learning new trends and technologies in the UI/UX field.

I believe my creativity, adaptability, and eagerness to grow would allow me to contribute positively to Nodeflux. I would welcome the opportunity to further discuss how my skills and enthusiasm align with your company's goals.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Kaka Puri
